

Q will have answer
SAKETEN

0 1101 | 0 1101 } add
0 0 110 | 1101 } shift > one
 one cycle

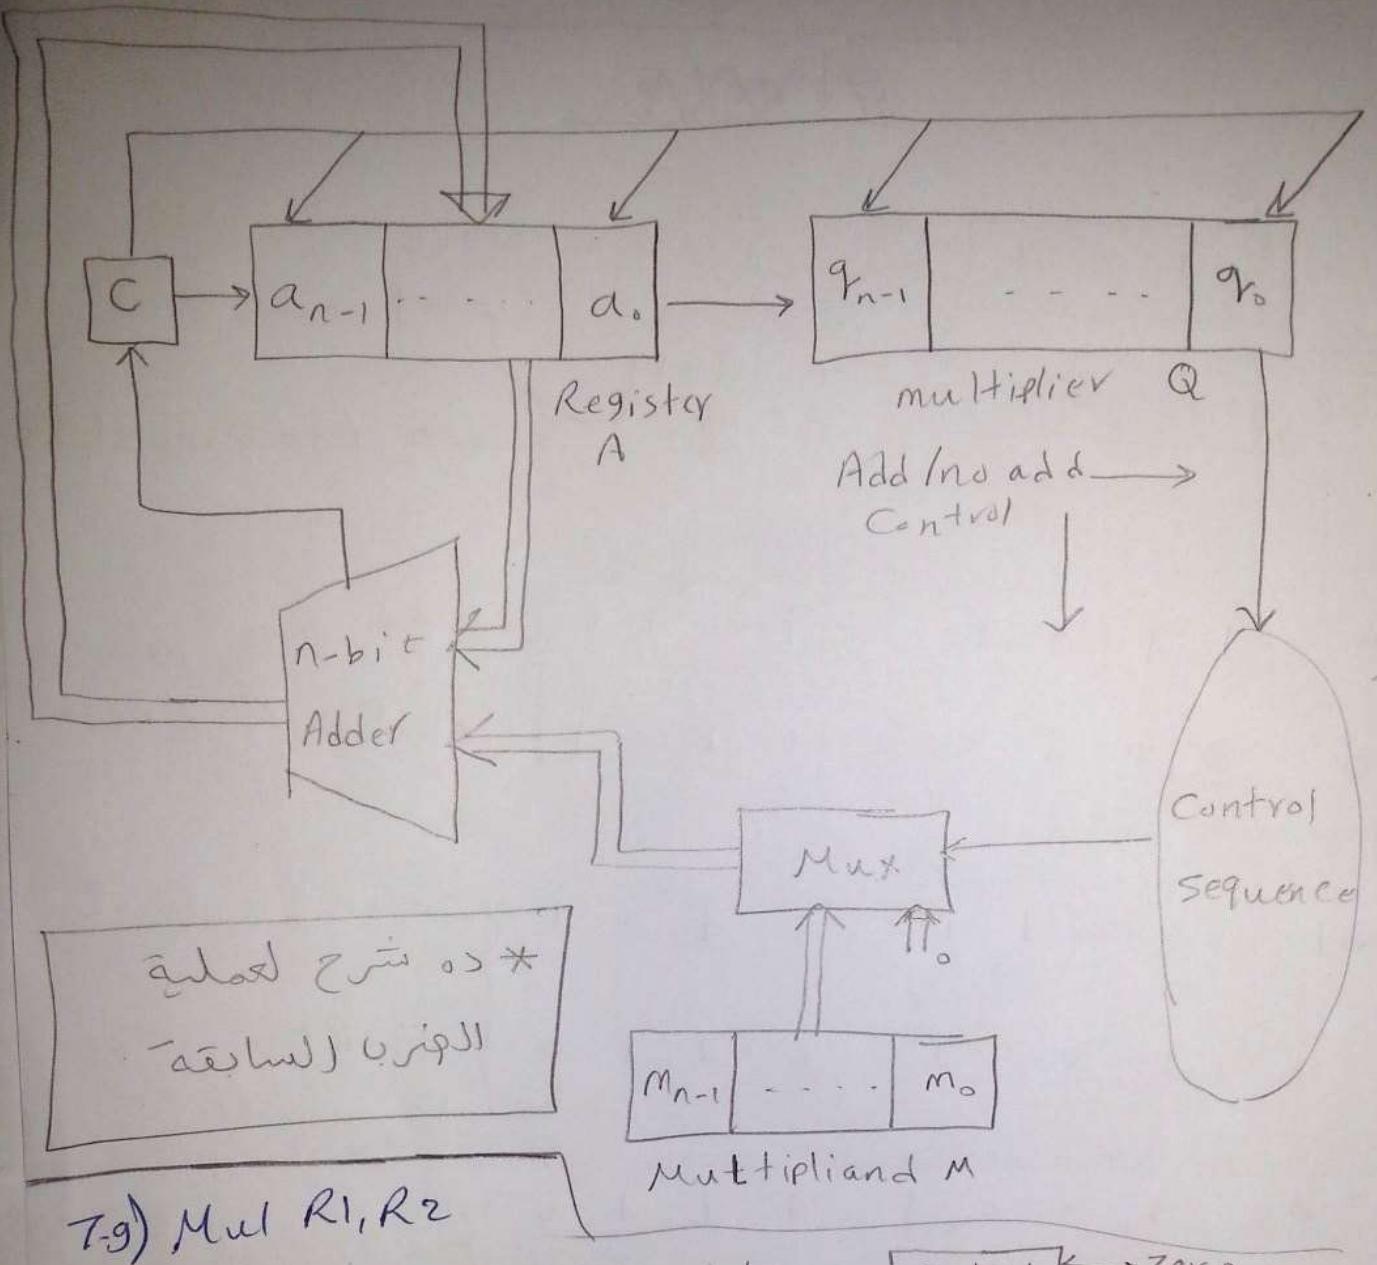

Measures:

0 0 0 11101 } add
0 1 0 0 1110 } shift
 no add, no shift

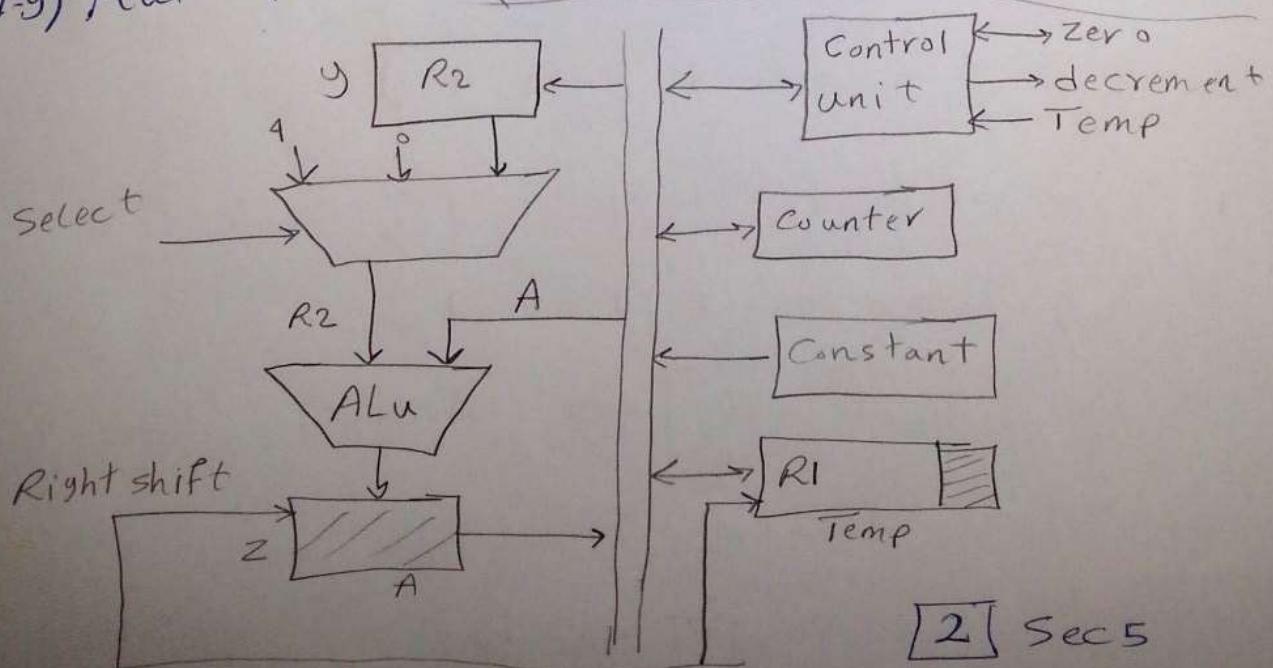

0 1 0 0 1110 }
0 0 1 0 0 111 }

1 0 0 0 1111 }
0 1 0 0 0 111 }

4 bit = Q \Rightarrow (4 cycles) use

7.9) Mul R1, R2

[2] Sec 5

After fetching the instruction

4. Constant = 32, Constant_{out}, Counter_{in}

5. R1_{out}, Temp_{in}

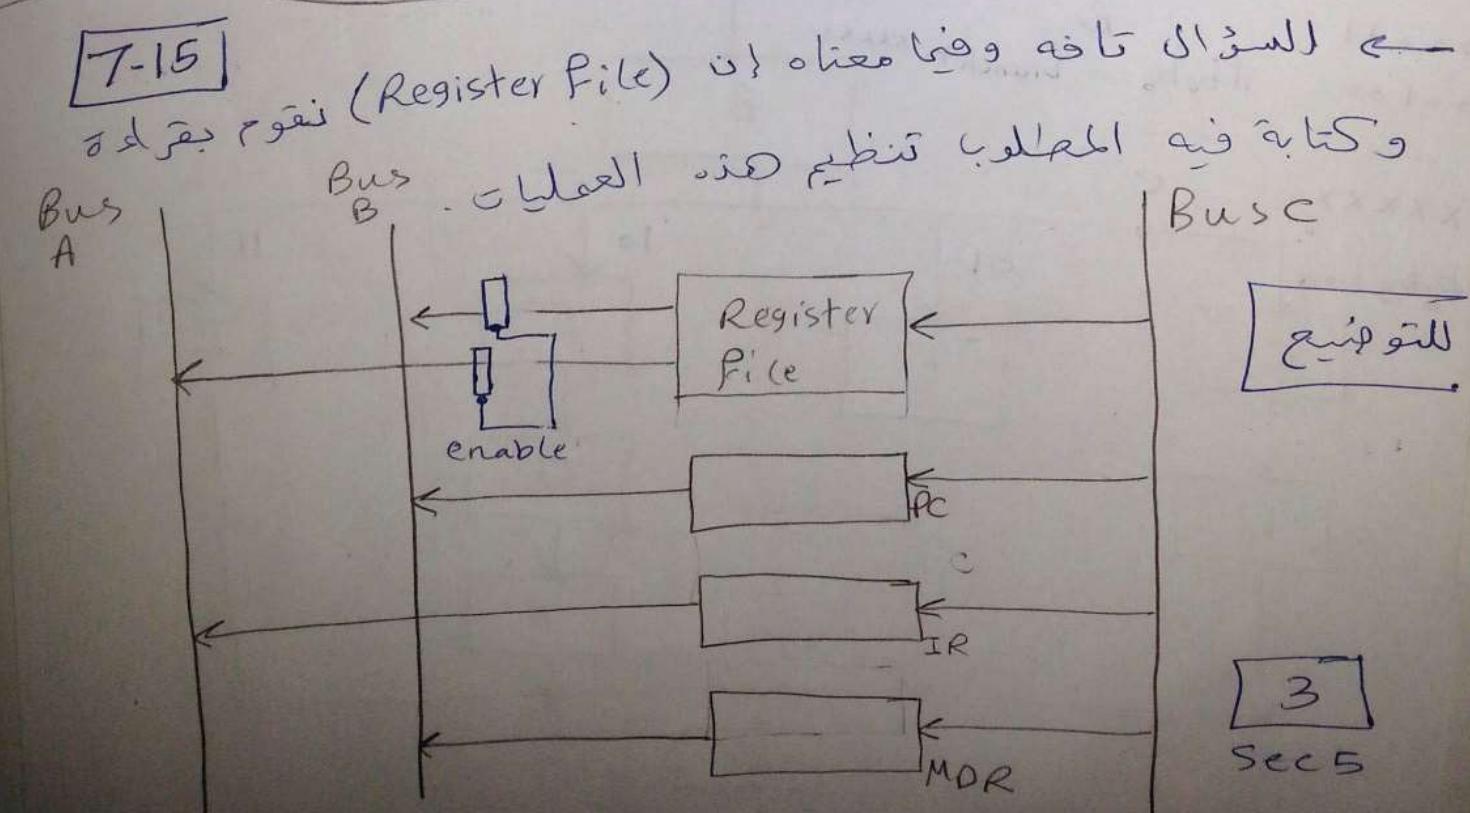

6. R2_{out}, Y_{in}

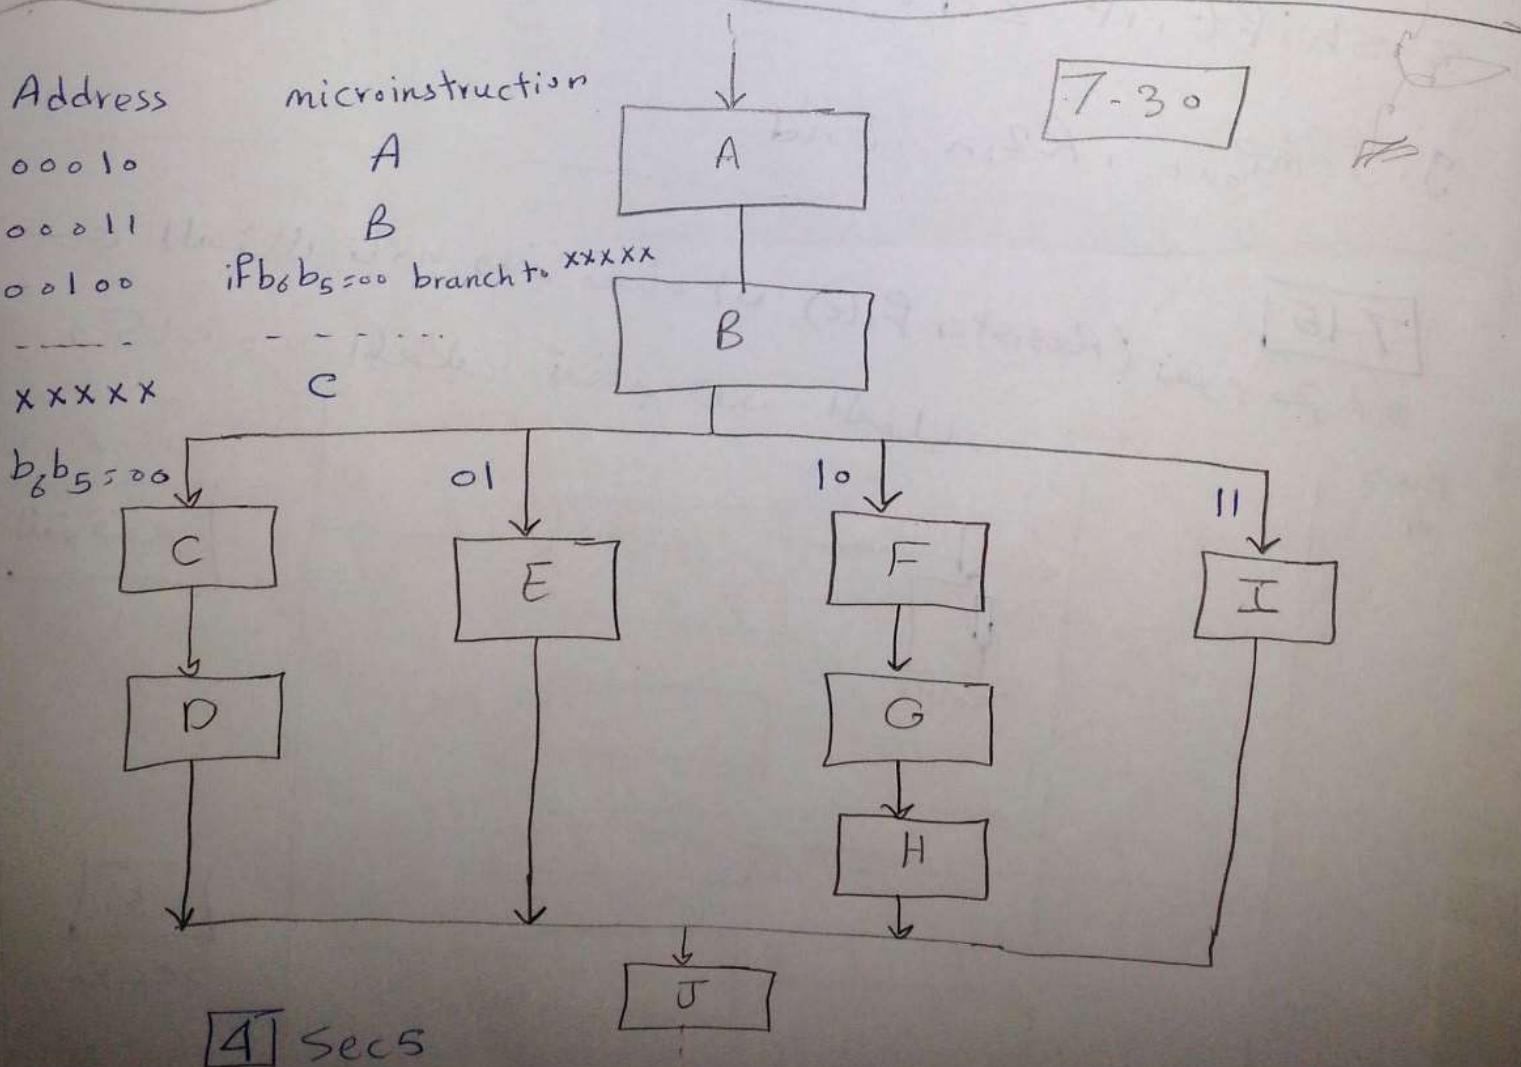

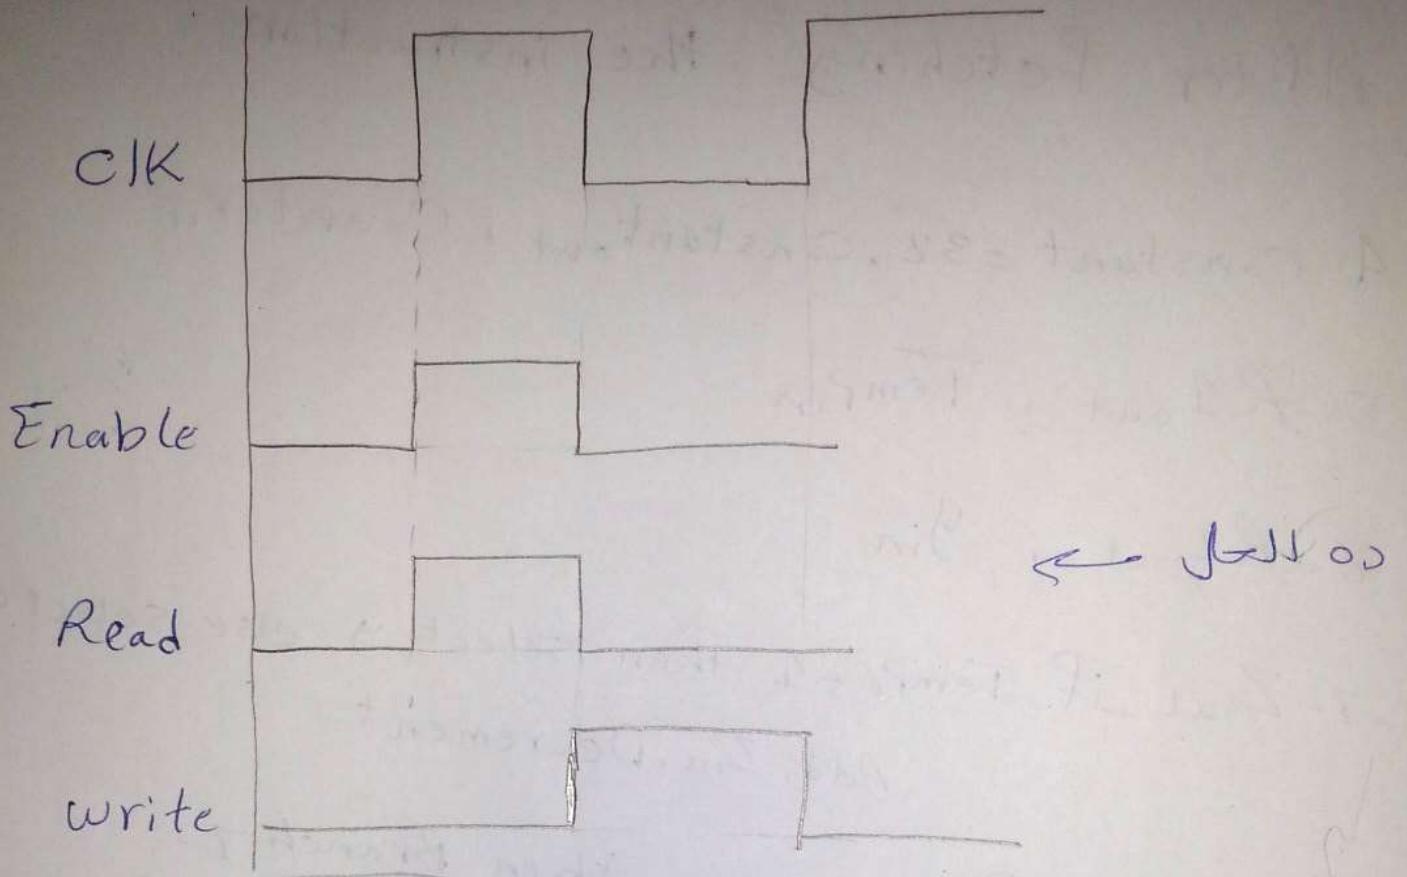

7. Z_{out}, if Temp_o ≤ 1 then select y else select 0,
Add, Zin, Decrement.

8. shift, if zero = 0 then Branch 7.

9. Temp_{out}, R2_{in}, End

7-15

Notes
